2. Payment of accreditation fee (refer to Appendix 1 for details) for the amount of _____ under W1/W2/W3* grade is as follows:

Bank & Cheque No: _____
(Payable to Singapore Concrete Institute)

3. The contact details for the audit is as follows:

Name & Designation	Contact Number	Email Address

4. Our preferred date of audit is _____.

5. Thank you.

Yours sincerely

Authorised Signature & Date	Name & Designation	Company Stamp with Address

* delete where appropriate

For Official Use Only		
Ref. No:	Date Received:	Fees Received:

INITIAL ACCREDITATION FEE

For first time applicant, the fee payable is \$3,530. First time applicant will be accepted as a SCI Corporate Member for joining the accreditation scheme.

ANNUAL ACCREDITATION FEE

Category	Renewal	
	SCI Corporate Member	Non-SCI Corporate Member
W1	\$2,390	\$2,970
W2	\$1,909	\$2,490
W3	\$1,540	\$2,120

Notes:

1. The accreditation fee shall be payable to Singapore Concrete Institute at the point of application.
2. There will be no refund of application fee if the company is not accredited to the applied grade.
3. The application will be terminated in the event that assessment is not completed within six months from the receipt of application. An administrative charge of S\$50 (of fee submitted) will be levied to the applicant if application is terminated or withdrawn before audit is conducted.
4. Additional re-audit fees may be required if additional visits are required to verify the implementation of corrective and preventive actions before Award of Certificate of Accreditation. Such re-audit fees will be quoted separately to the company and payment to be made upon acceptance of the quote.
5. Accreditation shall be valid for 1 year.
6. Annual accreditation fee shall be payable upon application before the renewal audit will be conducted.
7. Renewal shall be made before the expiry of the certificate. The certificate of accreditation will lapse automatically unless a renewal is submitted and approved by SCI. Firm will have to submit new application with applicable fee before audit is conducted.
8. Applicant will enjoy the benefits and privileges of the SCI Corporate Membership for as long as the company continues participating in the accreditation scheme. The current annual SCI membership fee is S\$578.

		b) To carry out inspection at various stages of works	A (Site visit)	A (Site visit)	A (Site visit)
		c) To carry out water ponding test after membrane application	A (Site visit)	A (Site visit)	A (Site visit)
		d) To establish and implement procedures to rectify defects	A	A	A
4.0	In-process inspection of internal wet areas waterproofing works*	Successfully completed at least one CONQUAS project that has undergone in-process check of internal wet areas waterproofing works	A	A	A

A (Applicable for Accreditation), NA (Not Applicable for Accreditation)

***A pre-requisites for waterproofing firm before they are accredited. Not required if the firm do not undertake project to be assessed under CONQUAS.**

The SCI Waterproofing Specialist Contractors Accreditation Scheme was launched in September 2004. The aim of this scheme is to ensure minimum competency and raise the capability of waterproofing specialist contractors serving the construction industry in the longer term. It also provides recognition to contractors who are committed to deliver quality waterproofing works.

This scheme is managed by the Singapore Concrete Institute (SCI) as part of the effort to promote greater self-regulation by the industry.

The accreditation criteria were developed jointly by the SCI and Building and Construction Authority (BCA) with inputs from waterproofing specialists and the Waterproofing Trade Association. Real Estate Developers' Association of Singapore (REDAS) had given their support on the scheme and would encourage its members to specify the use of accredited contractors for their projects.

Accreditation Grading and Accreditation Process

There are three categories of grading under the accreditation: they are **W1, W2 & W3**.

Waterproofing specialist contractors are assessed under accreditation criteria during the accreditation audit. Subsequently, the accredited contractor would be assessed annually. Compliance with criteria is required to retain the grading.

Accreditation Criteria

The accreditation criteria are based on three main areas as follows:

- Financial & track records
- Human resources
- In-house quality management system (with reference to BCA Good Industry Practice Guide where applicable)

Benefits of Accreditation

- Full points are awarded to projects employing accredited firm for Internal Wet Area Waterproofing in-process check under CONQUAS without the need for onsite verification.
- Accredited firms are eligible for Waterproofing Excellence Award by SCI for consistent quality waterproofing works.
- Bonus architectural CONQUAS point (provisional) awarded if project engages a SCI Waterproofing Excellence Award firm for their waterproofing works.
- Improved marketability and competitiveness
- Supported by REDAS
- Enhanced public image of firm

Enquiry

To know more about Accreditation Scheme and the application procedures, contact **Edina Koh** (Tel: 6552 0674 or scinst@scinst.org.sg). You may also log on to SCI website at <http://www.scinst.org.sg> for more information.
