

DIGITALISATION, AUTOMATION & TECHNOLOGICAL TRANSFORMATION

27 Aug 2021, Fri
3.30 PM to 5.00 PM

SPEAKERS

Opening Address

Mr Tan Sze Tiong

President, Singapore Concrete Institute

Director, Smart & Sustainability Research
Building & Research Institute, HDB

Driving Construction Automation & Robotics in Public Housing Projects

Er Angeline Tan

Building & Research Institute, HDB

Circular Economy with Low Carbon Footprint Concrete

Mr Lim Koon Min

Pan-United Corporation Ltd

Digitalising Construction

Ms Eunice Chuah

Hubble Pte Ltd

Webinar Synopsis

This webinar aims to share some of the digital technologies and automation trends in the built environment sector, as well as some circular economy initiative in the area of low carbon footprint concrete.

You will hear from industry speakers sharing their knowledge on how emerging and innovative technologies can help enhance productivity and improve service delivery, which are becoming increasingly important in our built environment.

Do join us for this webinar and our panel of speakers for insights towards emerging digital technologies and innovative solutions for construction in Singapore, as well as network with our industry partners to explore opportunities.
